NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest-charge on Pacific Railway bonds.

NOTE 2.—The statement of population for 1860 and 1870 is by enumeration, and for other years from estimates prepared by Prof. E. B. Elliott, of this department.

NOTE 3.—The figures for July 1, 1879, were made up assuming pending funding operations to have been completed.

NOTE 4.—The temporary loan, per act of July 11, 1867, is included in the 4 per cent., from 1862 to 1868, inclusive, with the exception of the amount outstanding for August 31, 1865, this being the date at which the public debt reached its highest point. This loan bore interest from 4 per cent., and was redeemable on ten-days' notice after thirty days, but being constantly changing, it has been considered more equitable to include the whole amount outstanding as bearing 4 per cent. interest on an average for the year.
